

LET ME AT MACLEOD EXHIBITION

Next Wednesday and Thursday, August 8th and 9th, Macleod's Big Fair will be staged. For months the management and directors have been planning for this fair and they are now asking the co-operation of the people of Macleod and district to make it a grand success. The work of the directors will be of no avail, if not backed up by the business men, the residents of the town, and the farmers. Co-operation on the part of all will make 1933 Fair the biggest success that has ever been seen on the Macleod Fair Grounds. Success can only be attained by your attendance at the Fair, where, not only will you be entertained, but you will also see a grand picture of the agricultural products of the Macleod district, a district which this year takes second place to none in the production of grain, grasses, roots and vegetables. The excellent display of these products that will be seen at the Macleod Fair this year will furnish such a tonic, that will make you think better of the district in which you live, it will arouse you to its great opportunities, and give you a new optimistic viewpoint. In the show room next week, will be seen some of the finest specimens of live stock ever seen in Macleod. Animals that have carried the highest honors in some of the largest exhibitions in the province this year. We are only beginning to find out that Macleod district can produce and is producing

TENDERS WANTED

Tenders wanted for painting the Ardenville School House and out buildings. Tenders to be in the hands of T. Kearns not later than August 3rd, 1933.

T. Kearns,
Sec. of the Ardenville School District.
21-2t.

these fine animals. So make up your mind to come to the Fair next Wednesday and Thursday, and look out for these animals, they are worth paying the admission fee to see them alone, for they have won at Calgary and they have won again at Lethbridge this week. We understand that the Indians of the Blood Reserve, under the able management of Agent Faunt, are making a new departure this year by showing for the first time, a number of horses, cattle, grains and grasses. These exhibits are the property of the Indians, not the Department of Indian Affairs, and the management of the Agricultural Society welcome most heartily the co-operation of Mr. Faunt and his charges in helping to make the Macleod Fair a bigger success, by bringing to the Fair these exhibits.

The Ladies Work and Domestic Products promise to be one of the largest displays ever seen in Macleod. Entries for these departments are pouring in from new exhibitors and old exhibitors, in such manner that will make the Exhibition Hall one of the biggest attractions of the Fair. The Entertainment Features of the Fair will be the best seen for many years. There will be lots of fun for old and young, something doing all the time. The Midway will be there with all the latest high-class attractions. Merry-go-round, ferris wheel, 6 big shows and 15 concessions, the whole fantastic world of carnival comradeship, armed with romance and drenched with headbashes. The balloon ascension and ariel trapeze will create great excitement and will cause spectators to hold their breath while this wonderful performance is executed in mid air. It will sure be "Up in the Balloon Boys."

The Baseball Tournament with two games each day, will provide the fans with a display of fast ball seldom seen in Southern Alberta. The four teams, Claresholm, Glenwood, Granum and Macleod will have an aggregate of players that will delight the most critical baseball enthusiasts. Each team is out to win the big money, so the fight will be hard and strenuous.

There will also be a splendid racing program each afternoon, and last but not least, the bucking contests. The creature comforts of the visitors will be well looked after at the refreshment booth, where ice cream, soft drinks, etc., will be provided, and by the Ladies of the R. C. Tennis Club, who will supply tasty meals and luncheon at reasonable prices. There will also be the Rest Tent for mothers and babies, under the care of

the Women's Council. This is a great boon to the mothers who can leave their babies with every confidence that they will be well looked after, while they go out and enjoy themselves, seeing the sights and taking part in the fun.

The BEST two day education and entertainment ever offered in Macleod, so all come and swell the crowds at the Macleod Fair. It's your Fair and by Fair, therefore, let us all BOOST, BOOST, BOOST for Macleod. We had almost forgotten to mention the grand wind-up dance each night in the G. W. V. A. Hall. There will be a four piece orchestra and refreshments, so a good time is assured to all. The WELCOME SIGN is hung out by MACLEOD for two days next week, Wednesday and Thursday. COME ONE, COME ALL.

AUGUST ROD AND GUN

There is an abundance of interesting material for the sportsman in the August issue of Rod and Gun in Canada, and from cover to cover, it is stocked with articles written from first hand experience, while the various departments are brim-full of interesting suggestions, and experiences. Raymond Thomson is represented by a good story on the Beaver, getting some unusual insights into its life. "Walking Up and Drifting Down" is an interesting account of a novel canoe trip by A. W. Tucker, while Bonnycastle Dale has contributed a good story on the wild geese hunters of Cape Island. The Sixth Close Call of Martin Hunter, contains another narrow escape from death, while an interesting article appears by G. W. Visser on making summer vacation pictures attractive. Robert Page Lincoln, C. S. Landis, F. H. Walker, W. C. Motley, F. V. Williams, and J. W. Wilson, the regular contributors, have supplied departments covering every phase of the sportsman's interest, and there are numerous other articles and stories in this well illustrated number which make the issue one of particular interest.

Rod and Gun in Canada is published monthly by W. J. Taylor, Limited, at Woodstock, Ontario.

Little Jack was looking at a picture of the martyrs being thrown to the lions, and his mother was telling him what a terrible thing it was. "Ma," said he, "Oh Ma, just look at that poor little lion there, he won't get any."

WHEAT POOL ORGANIZATION COMMENCED

The meeting of the farmers of Southern Alberta at Macleod, Thursday, resulted in the preliminary steps being taken to the immediate organization of that district for the purpose of getting a wheat pool under way as soon as possible.

It also resulted in the pledging of similar action by delegates from many other districts stretching so far north as Olds and Munson, to Medicine Hat on the east, and Cardston to the south.

A provisional board of seven was appointed with power to act on the number, and the delegates from these other districts were later added to this provisional board to form a delegation which would meet Aaron Sapiro in Calgary on Thursday, August 2, and submit to him, for advice, a proposed contract, bylaws and other details of their proposed action, and also to obtain such other advice as might be considered advisable or necessary.

Immediate Action Favored
There was no difference of opinion as to the taking of immediate action to form a pool for the 1933 crop, one delegate venturing to suggest the advisability of the "watchful waiting" policy. For the rest the only question was how quick could action be secured and what was the best means of securing maximum results with the minimum of delay.

The big meeting of big farmers in Macleod on Thursday, July 28, was evidence of the interest that is being taken by the farmers as a whole, in this province of Alberta. When you look over the list of places that were represented, and remember that almost all the province was at the meeting, then you begin to realize what a hold it is taking on the people.

Those Present
Farmer members of the provincial house at this conference included W. H. Shield, Macleod; E. G. Cooke, Pincher Creek; Nelson S. Smith, Olds; A. B. Claypool, Didsbury; T. C. Milnes, Claresholm; Hector G. Galbraith, Nanook; Samuel Brown, High River; W. C. Smith, Redcliff; G. G. Coote (Member for Macleod in Federal House). Others noted include Col. Robinson, of Munson; S. S. Sears, Nanton; Stephen Lunn, Pincher Creek; A. V. Harris, Macleod and many leading men from other points.

Farmers present as official representatives with full power to act from Pincher Creek, Macleod, Granum, Nanton, Olds, Rocky Coulee, Parkland, Munson, Didsbury, Redcliff, Huxley, Grainger, Claresholm, Blackie, Big Valley, Waterton, Cayley and Cardston, showing the great amount of territory, all of them large wheat producing communities, represented at the convention.

When the meeting came to order there was a good number in the hall and others came later. E. G. Cooke, make her ideas behave," portrayed by Marguerite Clark. The plot hinges around the desperate efforts of Mary Lucile to keep from an ardent suitor the fact that she has an ex-husband living and the equally desperate efforts of the ex-husband to prevent his wife from learning the identity of the young woman with whom he had once eloped and from whom he had been promptly parted by an annulment of the marriage.

An excellent supporting cast is to be seen with Miss Clark, her leading man being Leon P. Gendron. Other prominent players are Ralph Bunker Florence Martin, Virginia Lee, Alice Mann, Frank Badgley and T. A. Braden.

The production was directed by Edward H. Griffith. The scenes of the picture include a fashionable girls' boarding school, the elopement and a funny episode in the house of a negro minister, an ocean voyage, a quarrelsome New York, and the beautiful ballroom and the swimming pool of a country house.

TAKE NOTICE, FANS

Walter Hiers Now a Paramount Star in "Mr. Billings Spends His Dime"

Here are two important messages to the motion picture audiences of the world—one to the feminine fans, the other to the sterner sex: To the girls: Walter Hiers is now a full-fledged star. You have heard him laugh heartily over his screen puns will be glad to know that Paramount has promoted the former comedy favorite to sterner roles. His first starring picture is "Mr. Billings Spends His Dime," in which his own individuality is given ample opportunity to shine forth.

To the men: Walter's promotion hasn't affected him a little bit. He is still as hefty and as good natured as he was when he first entered pictures, an extra; or as he was a year ago, playing parts. Mr. Hiers will first be seen as a star in "Mr. Billings Spends His Dime," a Paramount picture, coming to the Empress Theatre next Wednesday and Thursday. Jacqueline Logan is featured as his leading woman.

MARGUERITE CLARK FORMS OWN PRODUCING COMPANY

"Scrambled Wives," the latest screen production of Marguerite Clark, released by Associated First National Pictures, Inc., and booked for an engagement of two days at the Empress Theatre, beginning Friday, was one of the successes of the week. The picture was a considerable run back in New York and Chicago.

M. L. A., Pincher Creek, was elected chairman. A. V. Harris brought greetings from the board of trade and Rev. J. Kennedy from the council, the mayor and deputy being absent.

The chairman explained the object of the meeting and asked for everyone to tell why he was there. "There is a growing feeling," he said, "that we want a wheat board, and we want it now. The marketing organization will I trust be completed today, and all go home ready to carry it out, and to get his farmer neighbor to sign up on a contract. The meetings of the past have done good in that this is the result of what has been done. The Macleod constituency, federal are ready now for the marketing association. We have been depending on others to act for us, let us now act for ourselves, as we will soon have to do. We have the products for the market, we have the men, the markets are ready all we have to do is to organize, and supply that market."

W. H. Shield, M.L.A., gave an account of the meetings of the past week, and the result was a meeting today. These districts are prepared to go ahead right now, and now is the time to organize. Australia is the only country now with a wheat board, and they made 14c last year on their wheat over the price offered. They get a market in England because their wheat is not mixed at the farmer delivers it. Their cost of marketing was only 1c per bushel. Let us here today form a wheat pool he urged.

Plea For Pool
E. L. Lunn: "We want the wheat board and hope to get it this year. I have a resolution that was passed by our board, asking for it. The order is indeed a large one, just remember we have no storage—U. G. have offered their but anyone can get that if they ask for it, the elevator law allows none to give all to any one company for this purpose. Financing the banks say you must apply to the headquarters for any assistance and then they may ask for a government guarantee, before doing this. Make haste slowly. At Regina all provinces from the west were there and arranged to have all organized in their districts, then when the provinces get under way they will absorb the small ones. So organize and let us try and get our wheat sold this year, if not we will be ready for 1924."

Immediate Start Urged
A. H. Lynch Staunton, of Pincher Creek, believed that all energies should at once be put into the immediate organization of a wheat pool. The handling of wheat in 1923. He outlined in detail the work and form of the Australian pools referring particularly to the conditions in Victoria, where the state owned a line of elevator facilities such as we had in Canada. This state has operated a wheat pool for several years and last year handled forty-nine million bushels with very satisfactory results, the net receipts to the farmers being in the neighborhood of \$1.15 a bushel, and this year the initial advance had been 75 cents per bushel which was also considered satisfactory.

Big Valley and Munson Keen
Col. Robinson, Big Valley, asked: "Is this a direct U. F. A. movement?" The chair replied, "You will have your answer by this meeting."

Col. Robinson stated that he represented the Big Valley to Munson district association of the U. F. A., where the demand for a wheat pool was so keen that it had been decided in general meeting to send a delegate to Macleod for assistance and inspiration. He stated that at his meeting a week ago the response to a request as to the number of those present who would be willing to sign a five-year contract was unanimous, and absolutely no question asked as to nature of the contract.

Col. Robinson said, "We have eight districts in the north that are ready now to sign up for a five-year contract, let us make it today."

A. B. Claypool, M.L.A., speaking for the Swallow to Huxley district of the U. F. A., stated that they were modelling their organization on the lines of the Pincher Creek Co-operative Association and that they counted on seeing all the local pools which might be formed in Alberta to co-operate in the selling end. He personally would like to see the work started at once.

Urges Farmers To Work
He had every confidence in the U. F. A. central office committee, of which Mr. Lunn was a member, but felt that the farmers were the ones who would have to get out and do the real work for themselves. He did not care to state that he thought that the pool could be ready to handle grain from the time of the first shipment, but felt that it was quite reasonable that the whole thing could be put into working order long before the whole crop had been moved. He thought that it would be reasonable to assume that it would be ready by the end of the year.

P. P. Wodbridge, of Calgary, former secretary of the U. F. A., was called on to address the meeting. He stated that he felt fortunate in recognizing that he was appearing before them as an old acquaintance, as he had discovered, much to his surprise, that he had been the initiator and instigator of that terrible plot on the part of the Conservatives of Alberta to smash the farmer organizations.

Aaron Sapiro's Visit
He was, in fact there as the official representative of the Calgary Herald and Edmonton Journal, in connection with the visit of Aaron Sapiro, specialist in the co-operative marketing of farm products under the pool system. He related briefly how his work in the Okanagan for the fruit growers had brought him in touch with Sapiro as far back as 1918, and that he had in a semi-official capacity had considerable correspondence with Sapiro on the Western Canadian situation in particular for nearly a year past.

Golden Age Ahead
Stephen Lunn, U. F. A. Director and member of the marketing committee, and the moving spirit in the Pincher Creek Co-operative Association, in a personal interview stated that his committee was going right ahead on their permanent work, but that the members were optimistic as to the possibility of inter-provincial action this year on account of the many obstacles, both natural and artificial, which stood in the way. He expressed the deepest regret at the tendency for political feeling to interfere with the value of Aaron Sapiro's prospective visit, but expressed the hope that while harm had already been done, it was not too late for all parties to get together to repair damages as far as possible, and get the best possible results from his visit.

So far as the Calgary meetings and conference were concerned, Mr. Lunn felt that Pincher Creek, which was the first district in Alberta to be organized in accordance with the Sapiro idea, would certainly be represented. He personally would do everything possible to see that every possible advantage was taken of the visit. Mr. Lunn is not only an enthusiast, but evidently sincere in his work, and your correspondent feels that his views on the timeliness and possibilities for results this year will not interfere in any way with his co-operation making the Sapiro tour a success. Macleod will certainly expect a meeting to be addressed by Sapiro on his return from Saskatchewan.

Arranging For Sapiro
He stated that the first intimation he had received that Sapiro was coming to Western Canada was the press dispatch from Regina stating that he was going to Saskatchewan the end of the month and that he had immediately wired both the Farmers' Union and Sapiro as to what was being done with regard to Alberta meetings. The reply was that nothing had been arranged for this province but that both parties were very desirous of having meetings arranged at the largest centres. He had immediately placed this information in the ordinary course of business before the Calgary Board of Trade and then The Calgary Herald.

The Herald's Offer
He learned from the latter that they had two weeks previously made a formal offer in writing to the central office of the U. F. A. to bear the entire expense of bringing Sapiro to Alberta if the U. F. A. would arrange the meetings and that this offer had been turned down. The matter had then been discussed of sending an invitation to Sapiro direct in behalf of The Herald and this had eventually been done, he himself sending a wire recommending acceptance of the offer.

The Important Thing
He did not wish to make any further comment in the matter but urged on the delegates that the really important thing was not as to who had invited Mr. Sapiro or what their motives were, but to make the very best possible use of his ability and experience while he was here and to use the results obtained for the advancement of their own organization and the agricultural industry in general.

No upward that the meeting should allow no minor considerations to stand in the way of having a strong delegation to Calgary on the 2nd inst. Sapiro, who stated that he was of the opinion that the meeting could be arranged for 19th inst.

(Continued on Page Three)

Will Be Represented
So far as the Calgary meetings and conference were concerned, Mr. Lunn felt that Pincher Creek, which was the first district in Alberta to be organized in accordance with the Sapiro idea, would certainly be represented. He personally would do everything possible to see that every possible advantage was taken of the visit. Mr. Lunn is not only an enthusiast, but evidently sincere in his work, and your correspondent feels that his views on the timeliness and possibilities for results this year will not interfere in any way with his co-operation making the Sapiro tour a success. Macleod will certainly expect a meeting to be addressed by Sapiro on his return from Saskatchewan.

Arranging For Sapiro
He stated that the first intimation he had received that Sapiro was coming to Western Canada was the press dispatch from Regina stating that he was going to Saskatchewan the end of the month and that he had immediately wired both the Farmers' Union and Sapiro as to what was being done with regard to Alberta meetings. The reply was that nothing had been arranged for this province but that both parties were very desirous of having meetings arranged at the largest centres. He had immediately placed this information in the ordinary course of business before the Calgary Board of Trade and then The Calgary Herald.

The Herald's Offer
He learned from the latter that they had two weeks previously made a formal offer in writing to the central office of the U. F. A. to bear the entire expense of bringing Sapiro to Alberta if the U. F. A. would arrange the meetings and that this offer had been turned down. MACLEOD ON FOUR PAIRS HIGHWAY

The following letter from Mayor McDonald, regarding his trip to Missoula, Montana, to a delegate from Macleod and District to Missoula to the Four Pairs Highway convention meeting will be read with much local interest, especially in view of the fact that his mission culminated successfully—the route being established through Macleod:

On Wednesday morning last I left Macleod by way of Lethbridge, Huxley and Columbia Valley for Kalispell, and reached that place about two o'clock on Thursday morning. I spent Thursday forenoon in Kalispell, a pretty, compact little city of about six thousand people. Mayor A. E. Soerensen, and P. H. Bernard, Secretary of the Chamber of Commerce and Member of the State Legislature. Mr. Spalding, of Fernie, and I were shown about the city during the forenoon. The main streets in Kalispell are paved and lit with cluster lights. There are excellent buildings there, particularly the Post Office building, in which The Chamber of Commerce has its rooms. Close to the city is a large pond, or small lake, which is used as a winter play ground for the young people of Kalispell, and is under police supervision.

On Thursday afternoon, Mr. Spalding and I, in company with some men from Kalispell, motored to Missoula, along the west side of Flathead Lake, passing through the beautiful Flathead Valley, and picked up delegates to the Highways Convention at Poulson and Ravalli. We reached Missoula Thursday night, and on Friday morning at nine o'clock the delegates from Canada and the United States registered at The Chamber of Commerce. There were Mr. Hanna, of Calgary; Mr. Spalding of Fernie; and myself as Canadian delegates. There were a great number of delegates from points along the projected highway in the United States.

We were given a welcome by Governor Dixon, Governor of the State of Montana. When the meeting got down to business different portions of the road were discussed and as a result of the discussion that took place the road as projected and outlined on the blue map which was sent to our Board of Trade here was adopted and established as the Pacific International Parks Highway, which reaches from Salt Lake City to Louise with a detour at Idaho Falls on the south to Yellowstone Park, and also with a slight detour north of Kalispell towards Benton in the Glacier National Park.

The road between Whitefish and Eureka is not in good condition, but the co-operation of the Highways Commission and the interest of the Forestry Department were promised in having the road put in first class shape for tourist traffic. There is one small portion of the road coming in a northerly direction from Eureka which requires to be repaired, and which will be improved after consultation with the Federal Government and the fixing by them of the Fort of

BRITAIN'S NEW BASE

Great Britain's plans for the development of her naval base at Singapore have been approved by the British House of Commons, some of whose members seemed to fear that the carrying out of the project might be regarded as a violation of the spirit of the Washington Disarmament Treaty. The proposals have received some attention in the United States, but in Canada have excited little comment, and none at all from the Dominion Government. What will be the attitude of the Prime Minister and his colleagues when the question is brought before the Imperial Conference this year has not been disclosed.

Singapore, situated at the apex of the Malay Peninsula, on the Straits of Malacca, has been described as "the gateway to the Far East," and as of great strategic value as a naval station. Great Britain already has at Singapore a drydock long enough to accommodate any ship in her navy, but not wide enough for some of the larger ones. Upon additional facilities and fortifications, the Government proposes to spend ten million pounds sterling. Some have surmised that Britain will station at Singapore one of three floating drydocks which she will soon possess and each of which will accommodate two battleships of the largest type. The plan to develop the base, it has been stated by Mr. Amery, the First Lord of the Admiralty, was first approved by the British Government in June, 1921, and was submitted to the Conference of Premiers of the self-governing Dominions in the same year. It has been stated by Mr. Eyre-McMansel, Financial Secretary of the Admiralty, that the project "was most strongly represented by the 'Dominions' at that conference. It was probably most highly approved by Australia and New Zealand. Col. Amery has expressed the hope that the conference of 1923 will endorse the proposal.

Mr. Amery has replied to those who seemed to think the enlargement of the Singapore base would be a violation of the Washington Treaty by pointing out that that treaty called for the maintenance of the status quo in respect of naval stations within carefully defined limits. Singapore is not situated within these limits. Australia and New Zealand, who were opposed to the denunciation of the Anglo-Japanese treaty will undoubtedly strongly favor the strengthening of the Singapore base.

Holland, in whose East Indian possessions, immediately south of Singapore, the Japanese have been carrying on their policy of peaceful penetration, it is believed, will be well pleased with Britain's decision. In the Pacific are somewhat similar to those of Canada, responsible officials view the proposed enlargement of the Singapore base, not as a violation of the Washington Treaty, but as a project to maintain peace in the Far East and to meet the views of some of the British Dominions. Britain, in short, is planning such facilities as will permit her, under new conditions, to concentrate her fleet for defensive operations in Eastern waters, just as she concentrated it in the North Sea before and during the war with Germany.

"D" DOES NOT MEAN RETURN OF BAR, SAY MODERATIONISTS
That question "D" of the liquor plebiscite that will be held on Nov. 5 gives the government the widest scope in framing an act, in the event of its acceptance and does not indicate or aim at a return of the bar, is the burden of a statement issued by the campaign committee of the Moderation League of Alberta. The different provincial branches of the league are represented on this committee.

The following is the statement that sets out the stand of the Moderation

TONIGHT—
Tomorrow Airplay
The following songs will be played on the radio tonight:
"Sweet Home Alabama"
"The Old Time Fiddler"
"The Old Time Fiddler"
"The Old Time Fiddler"

League on this question:
"The Social Service League has made a statement that we are advocating the return of the bar. This we are emphatically opposed to, as a great majority of our supporters today were those who voted to get rid of the bar in 1915, considering it a public nuisance and their sentiments have not since changed."

"The government of Alberta is charged with the responsibility of interpreting the wish of the people as recorded by them on November 5, 1923, but we insist that they shall not interpret Clause "D" to mean the return of the bar. Clause "D" gives the government the widest scope to bring in a sane, reasonable and practical law that will promote temperance and better social, moral and economic conditions in the province.

"We believe that the present Greenfield government has the interests of temperance at heart and that the legislation for the control and sale of liquor will be a good act, but should this government or any other government attempt to bring back the bar or saloon and its old abuses, the moderationists of this province will use all the power in their hands to prevent the consummation of any such legislation."

An old man lost his wife. About a month later he married a young and giddy girl. The neighbors were very indignant and on the night of the wedding gathered about the house with tin pans, kettles and horns and made a terrific racket. After the old man stood it as long as he could he came to the door and said, "It's a shame for you folks to make such a racket around here so soon after a funeral."

"Ah, what's the matter with you?" demanded a cabby. "Nothing," the matter with me you bloomin' idiot. "You gave me a nasty look," said the cabby. "Well, you certainly have a nasty look, but I didn't give it to you."

FARM FOR SALE
10% CASH—BALANCE IN 25 YEARS AMORTIZED

The Soldier Settlement Board of Canada offers for sale by Public Tender:
The south west quarter (S.W. 1/4) of section twelve (12) and the north west quarter (N.W. 1/4) of section one (1), all in township ten (10), range twenty-five (25) west of the fourth meridian.

Terms of sale are 10 per cent of the purchase price in cash on acceptance of the tender, and the balance in twenty-five equal, annual instalments, with interest at 6 per cent per annum on the amortization plan.

Each tender must be accompanied by an accepted cheque for \$100.00. If tender is accepted, this sum will be credited to the purchase price of the land. If tender is not accepted the money will be returned to the tenderer.

Tenders will be opened at Calgary, Alberta, on Thursday, August 16th, 1923.

The highest or any tender not necessarily accepted. If the land is not sold on the date above mentioned, the Board will be prepared to receive offers to purchase until such time as it is finally disposed of.

Tenders should be in plain envelope marked "Tender for the purchase of the S.W. 1/4-12 & N.W. 1/4-1, 10-25-W. 4th Mer." Address tenders and enquiries to:
THE SOLDIER SETTLEMENT BOARD OF CANADA,
W. S. WOODS,
District Superintendent,
Southern Building,
Calgary, Alberta.

Dated at Calgary, Alberta, this 1st day of August, 1923. 22-1t

DEMPSEY vs. FIRPO SEPT. 14
New York, July 28.—Champion Jack Dempsey will meet Luis Angel Firpo of Argentina in a 15-round fight to a decision for the world's heavyweight championship at the Polo Grounds on Friday, September 14. Promoter Tex Rickard announced today.

PEIGAN INDIANS STAGE BIG RODEO

The Bracket stamper held on Wednesday was eminently successful, and provided an interesting day for the large number who paid admission. The day opened with a big parade composed of Indians in full regalia, which brought back very vividly thoughts of the old days. Another very picturesque incident was the sight of an old Mounted Police guide walking here and there around the ground.

The races were numerous and very interesting, including novelty, obstacle and cowboy races, steer roping, bucking contests, calf roping, etc., proved very exciting and entertaining. The bucking and roping exhibitions were said by many to have been better than those at the Calgary exhibition.

Much interest centred in an auction conducted by Fred Foster of the race horse of the late deceased, Mr. Tom Crazyboy, who was killed on the C. P. R. track by a locomotive. "Chickie" got the horse on a \$135 bid.

Four grotesquely painted wigwags were open to the public, full of old Indian curiosities, bead work, etc. A special exhibition of first class bucking was put on by the Hunter brothers.

One very interesting feature was the horse roping. A horse was turned loose and all the riders raced to enter it with their lariats. The horse was given to the first man to successfully rope it. The winner of the prize was Tom Yellow Horn, an Indian.

The stamper was planned and carried through by the Peigan Indians themselves, and much credit is due them for the splendid manner in which everything was conducted.

HARDINGS ROYALLY ENTERTAINED

Vancouver, July 27.—To the Canadian Pacific hotel, Vancouver, goes the honor of being the first Canadian hotel in history to entertain the president of the United States. During President and Mrs. Harding's visit here Thursday the vice-regal suite as well as the entire eighth floor of the hotel was the headquarters of the chief executive of the United States and his official party. In the same rooms where H. R. H. the Prince of Wales entertained when he visited Vancouver three years ago, Mrs. Harding this afternoon received deputations and gifts from various official and unofficial organizations in Vancouver. Two newspaper girls who had the honor of chatting informally with the mistress of the White House found a charming womanly woman absolutely natural and sincere in manner and eager to express her genuine appreciation of Vancouver's welcome to her and her distinguished husband. Great quantities of flowers were heaped upon the president's wife. The women's club presented her with a beautiful painting, showing Vancouver's scenic beauty, and a handsome silver fox stole was graciously received from the Hudson's Bay Company of Canada. Mrs. H. T. Lockyer, wife of the chief commissioner for British Columbia, made this presentation.

President Oliver Fremont returned to Victoria today, proud he said, of the citizens of British Columbia and members of his own cabinet, for the showing they made at the reception to President Harding in Vancouver yesterday.

"As premier of this province, I am proud of the way the people turned out to welcome the president; there wasn't a single untoward incident during the whole day," he said.

"The whole reception given the president made a very good impression, I think."

GRANUM NEWS
BIG STORM AT GRANUM

Granum, July 26.—A big hail storm and cloudburst occurred in the Daly Creek and Carnforth districts on the evening of July 25. The storm came along the foot of the hills looking south and followed about straight south. The heavy rain started in about the Carnforth school, two miles north of Granum and eight west. In that district hail stones fell several inches in diameter. Crops in the path were completely ruined. The water torn out by the flood waters for several miles and wound around the school house. A barn was moved several rods, and culverts were thrown up on dry land.

As the storm travelled south it continued to damage grain fields. Pastures along the foot of the hills looked like they had been plowed. Windrows were broken and livestock killed by the hail stones and rush of water. Daly Creek, a small stream eight or ten feet wide ordinarily, winding its way through a valley several miles wide, was turned into a river and today the water is still very high.

Straight west of Granum six miles it would swim a horse for a quarter of a mile up to ten o'clock today.

With a few exceptions farmers were carrying some insurance and they are flocking into town today to put in claims. Crops were looking exceptionally good here and the insurance will not cover the loss. Some fields may make feed later on if the fall is favorable for late growth.

"How do you feel," said the physician who had been called to attend the seamstress. "Oh, sew, sew, but I seem worse to-day and have stitches in my side." The doctor hemmed and told her she would mend soon.

"Have you ever been sentenced to imprisonment?" asked the judge. "Never," said the prisoner, bursting into tears. "Well, don't cry my man," said the judge, "you're going to be free."

MACLEOD ON FOUR PARKS HIGHWAY

(Continued from Page One)

Entry. The alternate routes were by way of Gateway and Roos. The way by Roos seems to be the better road. The Secretary of the Chamber of Commerce promised to send me a report of the proceedings in permanent form so that I expect to have this report for distribution here.

It was determined that from Elko the better course to pursue to reach Lake Louise was in an easterly direction from Fernie, through Crow's Nest Pass and to Macleod, thence to Calgary, so that it means that the people who travel this highway and wish to see it at all will pass through Macleod. The road is now established.

It is my opinion that it was an excellent move to have the Town of Macleod represented at this meeting as the advantages of the road through the Pass District as a scenic route were clearly pointed out.

On Friday evening the delegates were entertained by the Missoula Chamber of Commerce in the beautiful banquet room of the Florence Hotel. The Chamber of Commerce of the United States flags were draped together on the wall and the banqueters rose and facing the flag sang "God Save The King" as an introductory song number. There were only 3 Canadian delegates there and the graceful compliment was fittingly acknowledged.

On Saturday morning we were escorted by members of the Chamber of Commerce to the University buildings and were shown over them. They were the State University buildings and they are certainly up to the minute in general equipment. From there we were taken to luncheon at the police barracks about two miles south of the city, where we had luncheon with the officer commanding. On returning to the city, we began our journey north at about two o'clock and reached Kalispel in the evening. Then Saturday morning we came north over the route to Eureka. We had luncheon at Eureka and proceeded then by motor to Fernie, where we entrained.

I cannot speak too highly of the beauty of the Flathead valley. We went south on the west side of the Lake and north on the east side of the lake. It seems that this particular time of the year to be a veritable Garden of Eden. Nor can I speak too highly of the welcome which we received at Kalispel and at Missoula.

Missoula is a city of about twenty thousand people, with a street car system, beautiful boulevards, fine buildings, and all the improvements of a modern city.

A feature of the meeting was the strong feeling of co-operation that seemed to prevail among the different members of the Chamber of Commerce and the men representing the different towns. If any difficulty was encountered every effort was made of overcoming the difficulty and were not deterred from any course of action because of it.

I am hopeful that as soon as the road from Whitefish to Eureka is improved, the port of entry determined, and some improvements shown along the Alberta portion of the road, the highway will be open to tourist traffic and that it will be a splendid thing for all of the towns along the road.

The necessity of providing some sort of convenience for tourists in the way of tourists' camps is very plain when one has been over the road and has seen the different tourist camps along the way.

Yours very truly,
J. W. McDonald.

Local Sport News
GLENWOODVILLE—MACLEOD

Marks' Colts are feeling their oats on Friday last they defeated the Glenwoodville ball jugglers on the local diamond after a hardy contest of struggle in which they were led by four runs to the fourth when Spud Murphy scored on an error. Jack McLaren helped himself to another. Kirk came in with a pray-for one in the fifth frame. The visitors got one in eighth—Hovis scoring, and making it 5-3 in their favor. The Glenwoodville boys didn't do a thing in their turn in the ninth, and Macleod coming to bat chased over three—Purcell Kirk and Murphy making the circuit and the score Macleod 6 Glenwood 5. Jack McLaren was much in evidence behind the bat.

The visitors were entertained at the Grill by the home team after the game.

MACLEOD—GLENWOODVILLE

The return game at Glenwoodville, on Wednesday evening resulted in a score of 7-2 in favor of Macleod. Purcell and Dean made the round in the first, and Dean repeated in the third. Hovis for Glenwood got around in the fourth. And Pitcher Leavitt scored a final for Glenwood in the last of the fifth, Macleod having in theirs in the first of the fifth put across two—Dean and Reid doing it. In the sixth and seventh nothing was doing for either contenders. The game ended in the eighth with McDonald and Dillingham scoring in the first half and the Glenwood boys drawing a blank—the game called then on account of darkness.

Bettories—Glenwoodville—Leavitt Johnston and Leavitt. Macleod—Murphy and Dillingham.

The Glenwood fellows showed a grand spirit of hospitality in entertaining the visitors after the game putting up a princely feed, followed by a dance.

ENGAGEMENT BROKEN

The engagement of Polo Negri, Polish movie actress to Charlie Chaplin star comedian of the motion pictures, which was announced some time ago, has been definitely broken off, according to the Los Angeles Times.

INTERESTING EXPERIMENTS AS TO INTOXICATION

Reports have been made recently on what are described as the most elaborate mammalian experiment ever carried on. It began in the Cornell University Medical College, New York, and continued for thirteen years. Dr. Charles H. Stockard, its author, wished to discover whether the special treatment of parent stock would affect later generations. The special treatment he applied was that of alcohol; the victims, or as the Old Soak would say, the beneficiaries, were guinea pigs, of which nearly 7,000 have been used so far. Dr. Stockard was not interested in prohibition; he was interested in testing a theory. The fact that the tests throw certain lights upon prohibition is only incidental; and the lights themselves may be rather fitful. It cannot be asserted definitely that alcohol has the same effects upon generations of human beings that it has upon generations of guinea pigs. Nor can it be asserted that it does not. At the same time the history of the dominant races in human history suggests that essentially the influence is the same.

Helped Fourth Generation
So far as guinea pigs are concerned the use of alcohol to excess is injurious to the individuals but beneficial to the race. The fourth generation of alcoholic guinea pigs prove in every respect better, healthier and more intelligent than the average non-alcoholic cavia. In brief, the theory is that the alcohol kills off the unfit so that only the unusually strong and intelligent survive. The system employed in the tests was to intoxicate the guinea pigs by inhaling fumes. Some have been drunk six days a week for six years, and the alcoholization is much more intense than in human beings. The Cornell experiments are interesting in their suggestion as to one of the causes why certain races have prospered; but they are far beyond the scope of practical politics.

POSSESSION
No rich apparel, no jewels rare,
Nor costly dwelling place have I.
Yet wealth is mine beyond compare,
And treasure money cannot buy.

The priceless boon of health is mine,
Ability to work with hand and brain,
Affection's loving cords my heart entwining;
What need have I of worldly gain?

The matchless beauty of earth and sky,
And all creation's wondrous grace
Are mine to enjoy: the gifts of God on high;
They lift my soul above the common-place.

The monied folk in ease and luxury
In search of pleasure for their leisure hours,
But I can find enjoyment near at hand
Mid singing birds and fragrant flowers.

And a brook that sparkles crystal-clear,
Mingling its murmur with the hum of busy bees,
Mirroring the wild flowers growing near,
Reflecting the overhanging trees.

The monied folks in ease and luxury dwell,
On rare and sumptuous foods they dine,
A host of menials serve them well,
But they know not sweet content like mine.

A daily task, a duty to perform,
God's blessing and the gift of health,
The love of dear ones, and a shelter from the storm,
Tis these alone that make true wealth.

—Ida Keith.

WHEAT POOL ORGANIZATION COMMENCED

(continued from Page One)

conference of such a delegation with Sapiro should they decide to send one and further to discuss with them the holding of mass meetings in Macleod and Lethbridge. These will be addressed by Sapiro himself on his return from Saskatchewan.

Pools in the States
In continuing his address at the request of the meeting, Mr. Woodbridge told of the work of many of the organizations working on the pooling system in the United States and illustrated from the works of the late G. Harold Powell and his own practical experience with the non-stock, non-profit type of pooling organization in the Okanagan Valley, the various forms of seasonal and other pools and the methods of financing them.

was used in connection therewith.
Up to the present time, he stated that personally he felt that the date on which the pool might be in operation, depended on the farmers themselves and the attitude assumed towards it by their organization. He agreed with the previous speaker, Mr. Claypool, that it might not be possible to have it ready to take the first car shipped but that there was no apparent reason to suggest that it could not be in operation before the bulk of the huge crop in prospect had been moved out of the country.

He did not believe that the difficulties of finance and other details of organization were any greater in this country than they had been in for instance the tobacco growers or the cotton producers.

He referred to wonderful speed and success which had attended the work of the U. F. A. when getting into the field for political action, reminded the delegates that this same organization was still available and was not willing to admit that the psychology of the farmers themselves or their enthusiasm for economic action in regard to the marketing of wheat was any different or less enthusiastic than it had been on that occasion.

Olds-Bowden Results
Nelson Smith, M.L.A., representing the Olds and Bowden Co-operative Association, told of the work already accomplished by that association in signing up 100 of their objective of 300 contracts. He urged the meeting to get busy and get into line.

W. C. Smith, M.L.A., of Redcliff said that he had not had any opportunity to get the opinion of his constituents but was positive that they could promise the utmost co-operation from his part of the province in anything that was done.

The Thing To Do Now
Mr. Allison, a delegate from Granum, thought that the central office of the U. F. A. had been slow in not getting in and inviting Sapiro before the Herald or other parties had taken the initiative themselves, but added that this was beside the question and the thing now was to cut out the quibbling on such points and get down to work making the best possible use of Sapiro when he was here.

No Utter Motives
S. S. Sears, of Nanton, stated that he was glad to have the statement from Mr. Woodbridge as to the events leading up to the invitation sent by The Calgary Herald to Sapiro and that there were no ulterior motives in sending that invitation, as many had hitherto felt that such was not the case. In regard to the possibility of a pool he personally did not expect a great deal more than the elimination of some of the unnecessary middlemen between the producer and his ultimate market.

Sapiro's Successes
He told how the Burley Tobacco Growers' Association in Kentucky and neighboring States organized under the supervision of Aaron Sapiro had gone ahead and signed up nearly 50,000 contracts on the five year term in little more than four months and that this had been done without any permanent organization such as the U. F. A. as a basis to work on. He remarked that these contracts had been signed up without any preliminary legislation or special incorporation proceedings, which had followed at a later date. He stated further that these contracts had later

been challenged in the courts by private interests and had in every case been sustained.

Interesting Discussion
Much other discussion followed on the question covering the details and results achieved by the Montana, Washington and Oregon wheat pools in which it was pointed out that success had been achieved and from 10 to 15 cents per bushel gained in returns to the grower in spite of the fact that these pools only represented as little as 20 per cent. of the production of their own districts and only an infinitesimal part of the total production of the United States. The delegates adjourned for supper for one hour after appointing a committee on resolutions and an assembly with undiminished vigor to resume the discussion and pass resolutions as follows:

Text of Resolutions
The text of the resolutions passed follows:
Resolved, that we take immediate steps to organize an association to be known as the Southern Alberta Producers' Association, Ltd.; said association to be formed for the handling of all farm products on the community basis as possible and that steps be taken immediately to organize a wheat pool in this district as a commodity to be handled on this basis. And, further, that it is the intention of this association to link up with any other associations formed along similar lines for the purpose of selling through one agency and further that this association shall co-operate with the provincial legislature and the United Farmers of Alberta so as to assist them in the formation of a provincial wheat pool.

Wool Crop in South
It is now estimated by the Southern Alberta Wool Growers' Association that the clip in the south part of the province will reach a million pounds and that the average price will be about 28 cents.

Fortune Wheels at Fairs Banned
Wheels of fortune and other gambling devices will be barred in future at Alberta fairs, according to an announcement from the attorney general's department. Notice to this effect is to be served upon the fair associations at the beginning of the year, in order that there will be plenty of warning for next year's exhibitions.

Tourist Traffic
Since the opening of the Banff-Windermere road linking up the grand circle tour through the Canadian and American Rockies, there have been 1089 cars over the road, according to a statement from Ottawa of which nearly 500 were American cars. At the auto camp in Calgary 4600 tourists have been accommodated since July 1st.

British Forestry Delegates
A distinguished party of delegates to the British Empire Forestry Conference being held in Ottawa, will visit the province during the latter part of August reaching Edmonton August 22. The chairman of the conference is Lord Lovat, and the party to visit Alberta includes men from all parts of the empire. The visitors will be met at Wainwright by Premier Greenfield and Hon. George Hoadley.

Alberta Coal for Ontario
According to an arrangement made with the Canadian National Railways, a shipment of 4,000 tons of Alberta coal, at a rate of \$7 a ton, will be made to Ontario in the next few weeks, for exhibition and experimental purposes. The shipments will be made from several mines in Alberta, under the authority of the Alberta Government. This arrangement is a result of the conference held some time ago between fuel board officials, Alberta Government officials, railway officials and mine owners. Mr. Howard Stutchbury, trade commissioner of the province will have charge of the distribution of the coal in Ontario. The object is to demonstrate finally the feasibility of establishing Alberta coal as a suitable Ontario fuel.

New Irrigation Areas
According to statements contained in the annual report of the reclamation service of the department of the interior at Ottawa, it is possible to irrigate nearly 400,000 acres more south and east of Lethbridge, at a cost of about \$40 an acre. The development of this area, however, depends on the development of reservoir system on the Waterton, St. Mary's and Milk Rivers. For the development of the Lethbridge southern project the cost of reservoir system would be about \$6.40 an acre.

Ship Poultry Carlots
The poultry marketing service of the department of agriculture is providing facilities for the handling of shipments of poultry from country points by carlot. The farmers are urged to co-operate in the shipment of their poultry to the marketing service in car lots since there is considerable saving in transportation charges, and the marketing service is giving particular attention to these shipments.

Selling of Formaldehyde
While it is provided under federal law that formaldehyde must be sold in containers properly labelled as to strength it is stated that it is quite legal for farmers to bring their own containers when purchasing formaldehyde, provided the merchant sees that such containers are labelled similarly to the containers from which the formaldehyde is taken, before the purchaser leaves the store. It is often inconvenient for farmers to purchase the material in large quantities. Merchants should keep a supply of labels on hand, in order that containers brought by farmers may be properly labelled.

Visitors to Alberta
Visitors to the government buildings during the past week included Commissioner Henry Bullard, Secretary of Emigration for the Salvation Army in London, England, also James H. Burdett, Editor of the Woman's Weekly, of Chicago, who is investigating conditions of social welfare among the people of the West and who was greatly interested in Alberta's system of municipal hospitals, and the school fairs and department of education in the rural districts.

Mr. Sapiro Leaves
A. G. Sapiro, Deputy Attorney General of Alberta, left for Toronto Saturday Night.

CAPITAL GOSSIP AND PROV. NEWS

It is estimated that between 10,000 and 12,000 men will be needed for the harvest fields in Alberta commencing about August 10 or 12. The labor department of the government, under Walter Smitton, commissioner of labor, is now canvassing all possible sources of supply of such labor. Harvesting excursions will begin to arrive in Winnipeg on August 7, and others will reach there August 10, 18, 21. Alberta will get a considerable number from these excursions, and it is estimated that 2,000 or 3,000 men can be secured from B. C. The labor department is making a special appeal to all employers in the province to release as many of their employees as possible for the harvest fields. Men will be needed from August 10 onward, and employers who can release employees, and employees themselves, are asked to register with the nearest government employment bureau, which will see that the hands are placed. It is possible also that high school students will be asked to take a hand in the harvesting.

Wool Crop in South
It is now estimated by the Southern Alberta Wool Growers' Association that the clip in the south part of the province will reach a million pounds and that the average price will be about 28 cents.

Fortune Wheels at Fairs Banned
Wheels of fortune and other gambling devices will be barred in future at Alberta fairs, according to an announcement from the attorney general's department. George Hoadley.

Alberta Coal for Ontario
According to an arrangement made with the Canadian National Railways, a shipment of 4,000 tons of Alberta coal, at a rate of \$7 a ton, will be made to Ontario in the next few weeks, for exhibition and experimental purposes. The shipments will be made from several mines in Alberta, under the authority of the Alberta Government. This arrangement is a result of the conference held some time ago between fuel board officials, Alberta Government officials, railway officials and mine owners. Mr. Howard Stutchbury, trade commissioner of the province will have charge of the distribution of the coal in Ontario. The object is to demonstrate finally the feasibility of establishing Alberta coal as a suitable Ontario fuel.

New Irrigation Areas
According to statements contained in the annual report of the reclamation service of the department of the interior at Ottawa, it is possible to irrigate nearly 400,000 acres more south and east of Lethbridge, at a cost of about \$40 an acre. The development of this area, however, depends on the development of reservoir system on the Waterton, St. Mary's and Milk Rivers. For the development of the Lethbridge southern project the cost of reservoir system would be about \$6.40 an acre.

Ship Poultry Carlots
The poultry marketing service of the department of agriculture is providing facilities for the handling of shipments of poultry from country points by carlot. The farmers are urged to co-operate in the shipment of their poultry to the marketing service in car lots since there is considerable saving in transportation charges, and the marketing service is giving particular attention to these shipments.

Selling of Formaldehyde
While it is provided under federal law that formaldehyde must be sold in containers properly labelled as to strength it is stated that it is quite legal for farmers to bring their own containers when purchasing formaldehyde, provided the merchant sees that such containers are labelled similarly to the containers from which the formaldehyde is taken, before the purchaser leaves the store. It is often inconvenient for farmers to purchase the material in large quantities. Merchants should keep a supply of labels on hand, in order that containers brought by farmers may be properly labelled.

Visitors to Alberta
Visitors to the government buildings during the past week included Commissioner Henry Bullard, Secretary of Emigration for the Salvation Army in London, England, also James H. Burdett, Editor of the Woman's Weekly, of Chicago, who is investigating conditions of social welfare among the people of the West and who was greatly interested in Alberta's system of municipal hospitals, and the school fairs and department of education in the rural districts.

Mr. Sapiro Leaves
A. G. Sapiro, Deputy Attorney General of Alberta, left for Toronto Saturday Night.

near the business of the province in connection with the wheat pool. It has been given six months' leave of absence by the Alberta Government and no permanent appointment to his position will be made until the fall, when Mr. Brownning will decide as to whether he will resign. Mr. Brownning has been with the Alberta Government eight years, and has occupied the position of deputy attorney general, official guardian of lunatics' estates, and administrator of lunatics' estates.

SIXTH SEMI-MONTHLY CROP REPORT

Issued by Publicity Commissioner, Department of Agriculture, Edmonton, Saturday, July 21, 1923

Alberta crops are progressing satisfactorily towards the harvesting stage. Although the precipitation has diminished in most districts during the past fortnight, there is sufficient moisture in the soil to carry the grain to maturity in practically all sections of the province.

Practically all wheat is now headed out, and is filling rapidly and well. The stand of this grain in most districts is very heavy, and is from four to five feet and even more in height. Oats and barley are heading out and promise a good yield.

Hay is in progress over the province, and the yield of native grasses is very heavy, although the timothy crop will be light. The first cutting of alfalfa has yielded well and the second growth is showing a good stand.

Harvesting of wheat will commence in a few districts in the province as early as August 10, but will not be general until between the 15th and 20th. The weather generally speaking has been very warm, with a few showers. In one or two districts in the south-eastern part of the province, the hot weather has produced slight drought conditions, but the grain has not suffered to any appreciable extent. Grasshoppers are still causing some trouble in a few districts in the south, and there have been one or two serious flights. Little damage, however, is reported as yet.

Since last report damage from hail has been serious in some districts in a limited area, where the extent of damage has ranged from 25 to 75 per cent. A large number of claims have been received at the offices of the municipal hail board, but the majority of these are for comparatively small amounts. The percentage of loss from this cause in the province as a whole will not be great.

The latest estimate of the number of harvest hands needed in the province is 12,000. The department of labor is exerting every effort to fill the demand. Excursions to the West will commence to arrive August 7, and the first party will reach Alberta between August 8 and 10. Appeals to employers in the province are also being made to release as many employees as possible for the harvest season.

Farmers are reminded that it may not be possible to secure men on the exact date they are needed, and are asked where possible to take men on a day or two previous to commencement of harvest, in order that they may be taken care of.

LIST OF SCHOOL FAIR DATES UNDER THE DIRECTION OF THE CLARESHOLM SCHOOL OF AGRICULTURE

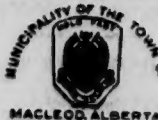

Cayley, Sept. 4th; Cowley, Sept. 7th; Granum, Sept. 11th; Macleod, Sept. 12th; Staveland, Sept. 13th; Claresholm, Sept. 14th; Pincher Creek, Sept. 18th; Foothills, Sept. 19th; DeWinton, Sept. 20th; Okotoks, Sept. 21st; Nanton, Sept. 26th; Vulcan, Sept. 27th; Blackie, Sept. 28th; Barons, Oct. 2nd; Carmangay, Oct. 3rd; Champion, Oct. 4th.

CARD OF THANKS

Mrs. Sorge and family wish to thank the many friends who were so kind to them during their recent bereavement.

WALTHAM WATCH

RAILROADS run largely on Waltham time, the favorite Waltham for railroad men being the "Vanguard" Model. This comes in 23 and 19 jewel movements, with 24-hour dial. The 23 jewel watch has also a winding indicator. Come in and let us show you this well-known watch.

R. W. RUSSELL

JEWELLER .. OPTOMETRIST

DON'T BE A "JOHN HENRY"

SPARE A LITTLE

For Your Family's Photographs!

John Henry owns a silver and every week or so, he spends half a dozen bones to make the darn thing go. There's gasoline and cup grease, general repairs and a dozen other things they buy to save their street car fares. Now, in a dozen future moons he'll sell his pile of tin for cash enough to have the whiskers scraped from off his chin. Each passing month he spends his kale in large and liberal hunk, and when a year has frittered past has nothing left but junk.

And yet, you ask John Henry to give his wife six bones with which to buy some photographs of all the kids he owns; some pictures that will ne'er wear out but in some future day will be a lot dearer than they even are today. You say, "My Dear John Henry, why don't you spare some dough to have the family photographed as through this life they go?" "Oh! me—Oh my—Oh mercy," he squeals in agony, "To spend my cash for such as that. Oh! mercy—my—Oh me."

And so it is, my friends, you'll buy a dozen golden bricks and spread your dough around on Ford's, and duds and silk rain sticks; but when we say, "Be photographed," your hair stands up on end; you yell, "The price is more than I can well afford to spend."

TEAM FROM THE CLARESHOLM SCHOOL OF AGRICULTURE MAKING GOOD SHOWING IN THE PROVINCIAL LIVESTOCK JUDGING CONTEST.

The annual live stock judging contest between the Provincial Schools of Agriculture was held in Calgary on Thursday, July 15th, 1923. Claresholm was represented by S. Morrison, Claresholm, Wm. Bennett, of Burmle, and R. McNab, of Macleod. The team was coached by G. S. Walker, Live Stock Instructor of the School. There were classes judged in beef cattle, dairy cattle, horses, sheep and swine. Claresholm boys secured first place as a team in four of the five classes judged, only falling below their opponents in a class of sheep. The individual aggregate gold medal was won by Spence Morrison, while Wm. Bennett secured the third place aggregate medal. Special first and

seconds were secured by the Claresholm boys in the various classes.

METHODIST CHURCH

Rev. W. R. Johnston, S. T. L. of Brantford, Ontario, who with Mrs. Johnston is visiting with his brother-in-law, Rev. G. D. Armstrong, will preach at both services in the Methodist Church next Sunday. There will be a song service preceding the evening service—Visitors are cordially invited. A meeting to organize the Macleod Constituency in the interests of Prohibition, will be held in the office of the Irrigation Company—Great West Saddle Building next Saturday, Aug. 4th, at 3 p.m.—All who are interested in this campaign are earnestly requested to be present. Rabbits multiply but it takes a snake to be an adder.

LOCAL AND PERSONAL NEWS

Miss Lillian Webb spent the week-end at Waterton Lakes, visiting friends.

Miss V. M. Hunter, of Vancouver, is the guest of Mr. and Mrs. A. W. Bowden.

Born to Mr. and Mrs. F. J. Butler, at Macleod Hospital, Tuesday, July 24th, a daughter.

Miss Alice Bibby of Calgary is holidaying in Macleod, the guest of Miss Olive Lambert.

Mrs. Coffey and Miss Edith Coffey have returned home, after spending a week at Waterton Lakes.

A. R. McPherson has returned to Montana, after spending several days in Macleod, visiting friends.

Mrs. William Mison, of North Bay, Ont., was the guest of her cousin, Mrs. J. Smith, of Macleod, over the week-end.

Mrs. Alex Dunn and family left Tuesday morning for Vancouver, B. C., where they will visit friends for a short period.

Mr. and Mrs. T. B. Martin and Master Barney returned on Sunday last from a week's vacation spent at Waterton Lakes.

Mr. and Mrs. R. M. Reid left on Wednesday, Aug. 1st for Long Beach California and other southern cities for a month's holiday.

Messrs. J. W. Moreau, F. Tatham, E. Holmes, R. Gardiner and Neville Kirk, were visitors at Waterton Lakes over the week-end.

Mrs. H. S. Casey, who has been visiting in Calgary for several months, will remain at her home in Macleod for several months.

S. Heap will judge the Light Horse Classes at Priddy's and Millerville this week, High River next week and Okotoks the following week.

Miss Alice George and Miss Mollie Mathews, are visiting at the home of Mr. and Mrs. J. H. Peard, south of Macleod, for a few days this week.

E. L. Davis, ledger keeper in the Canadian Bank of Commerce here left Wednesday for Glenora, where he has been transferred as teller to that branch.

James Kirkwood, motion picture actor and director, and Lila Le screen actress, were married in Los Angeles, California on Thursday July 26th.

Word has been received from Ottawa that Commissioner Starnes of the Royal Canadian Mounted Police, who has been seriously ill for several months, has now recovered.

Miss Alice George of Victoria, B. C. and Miss Nora Mathews of Calgary were week-end visitors in Macleod from Saskatoon enroute to Calgary, and were the guests of Mrs. R. G. Mathews.

The Local Council of Women have arranged to have a Rest Tent and Nursery at the Fair. Mr. E. McNeill of Standoff, having kindly provided a tent. This tent is free to all women and children who care to make use of it.

On July 25th, the U. F. A. and U. F. W. A. of Rathwell held their annual picnic at Jerry Pott's, which was most enjoyable. One of Macleod cooling breezes kept the flies and mosquitoes away, consequently the older people were able to sit around watching the younger members swimming and racing, with comfort. A most palatable supper was spread on the grass, after which many games were indulged in the tug of war proving very exciting for a time. Married men vs single men in the pull seemed to be a tie for a while, but to the joy of the younger people, the single men won. A pillow fight was also indulged in between two men on a long pole which caused the greatest amusement, as it was almost impossible to sit upon it. Man proved his relation to the animal as feet and hands were used for clinging. Our thanks are due to Mrs. E. McCrae who provided the candy stall with such delicious candy, also the ice cream was very acceptable for the

THE HUNDRETH TIME

I can't see anything in girls
Excepting one; that's you;
And even you will drift and dream
As only girls can do.

We tramp the hills, we sail the bay
And you'd go on with this;
I want a home; and cups of tea;
I'd make for anchored bliss.

O yes at times the rippling rills
Do chant throughout the mead,
And walks to view the Summer skies
Are very nice indeed.

Yet, when I've raved of anything
Enough and you not quite,
I'd like a garden patch to hoe
Till you'd calm down a mite.

Or take the times when each of us
The twilight is to join,
An hour when I'd want you to
You'd join; and I'd smile.

How can I, a hundredth time
I love you and you know it,
Now when I'd said and would say
A century or two.

But for death, the guests of Mrs. McDonald's, Mrs. A. W. Bowden, Mrs. T. A. Davidson.

Bobby: "Uncle, couldn't a fellow have a fine dinner if he was as hungry as me and as rooky as you."

OBITUARY

DEATH OF JOHN JACKSON YOUNG

On Saturday night last Arthur Young received word of the death of his brother, John Jackson Young, at Vancouver, who died after a lingering illness following a stroke. His death was not unexpected, as the superintendent of the hospital in which he was a patient, notified his relatives some time ago that Mr. Young's strength was failing and that the end was inevitable.

The deceased was formerly owner and editor of the Calgary Herald, and was well known in Calgary and throughout the province.

Four brothers, D. J. and E. J., of Calgary; William, of Winnipeg, and Arthur, of Macleod, and three sisters, Mrs. D. Argue, of Grenfell, Sask.; Mrs. T. W. Pearl, of Regina, and Mrs. (Dr.) Rothwell, of Regina; his daughter, Mrs. Laird, of Winnipeg, and four sons survive him. He was 55 years of age. Interment was made in Victoria.

DEATH OF AUGUST SORGE

August Sorge died at Macleod on Saturday, July 28th, at the age of sixty-seven years, suffering from cancer.

Mr. Sorge came to Macleod from Nebraska, U. S. A., twenty-seven years ago and farmed at Olsen Creek for some twenty-four years, about three years since Mr. Sorge sold his farming interests and has since resided in Macleod. The deceased is mourned by his wife, and six children, Mrs. W. H. Dunbar, Macleod; Mrs. C. Collins, Omaha, Nebraska; Mrs. Smith, who lives in Saskatchewan; Max Sorge, Macleod; Albert Sorge, Saskatchewan, and Miss Flora Sorge, of Calgary.

The funeral occurred from the Presbyterian Church, Macleod, on Monday, July 30th, where many sorrowing friends and acquaintances attended and afterward followed in the funeral procession to the Union Cemetery where interment took place.

DEATH OF MRS. R. G. CHARLTON

The death occurred on Friday, July 27th, at the Galt Hospital, Lethbridge, of Mrs. R. G. Charlton, wife of Corporal Charlton, of the R. C. M. P., Lethbridge. Mrs. Charlton was well-known in Macleod, having lived here for number of years before moving to Lethbridge, and the sympathy of her many friends, goes out to her husband and three children whom she leaves to mourn her loss.

MAKING THE BEST USE OF EXPERIMENTAL FARM SEED

Many farmers this spring will have obtained seed grain of special breeding from either the Central Experimental Farm, Ottawa, or from one of the Branch Farms or Agricultural Colleges throughout Canada. From the former institution alone samples of seed grain, varying from two to five pounds each, were sent to 15,676 farmers who had applied for same. In the case of most of the other institutions, considerable quantities also were supplied. These samples if carefully handled, be they small or large, may form the basis of a supply of superior seed for the farm and sometimes for the neighborhood. A word regarding the handling of the foundation plots should be of some value.

First of all the grower should aim to propagate this seed so as to obtain therefrom the greatest quantity of high class seed for use the following year. The first consideration therefore should be the seed bed and the second the method of seeding. While it is now too late to consider these points this year, a reference to them may be of value later.

The seed bed should be well prepared, well drained and in a high state of fertility to obtain maximum returns. It is a good plan to regard the foundation plot as a garden which usually receives a little extra treatment. As to the method of seeding it is found that by sowing thinly, greater gross returns are likely to be realized than by sowing at the usual rate. In other words, one can afford to be extravagant of land in order to secure the greatest possible increase from the seed sown. Before commencing operations, however, care should be taken to see that the seed drill is absolutely clean. Precaution should also be taken to see that the plot is isolated a sufficient distance from the poultry house to prevent injury by fowl.

Since there are many ways in which other kinds of grain may find entrance into the plot, it is advisable that the growing crop on this plot be watched carefully and all foreign plants removed by hand before or during harvest. In ordinary practice a few heads of barley or wheat or even other kinds of oats in a plot of oats might not be of any great consequence, but since these impurities are liable to increase in the crop and since they are not wanted by people who are looking for pure seed it is well worth while to remove them. Investigation has shown that grain which has been allowed to mature is likely to be more productive than grain which is cut on the green side. It is recommended therefore that the foundation plot be allowed to become thoroughly mature before harvesting.

The harvesting and threshing of the plot should be performed carefully so as to prevent contamination of machinery being thoroughly cleaned before beginning operations. The seed should be put into bags covered blue or burlap immediately upon its removal from the thrasher. Care should be taken also when cleaning the seed to see that the fan-mill as well as the containers in which the seed is to be kept do not contain kernels of other grain. The seed should be kept in a cool, dry place and the growing experiments should be multiplied with the same care as that exercised the first year.

MISS A. M. WILSON

REACH & COMPANY

DRY GOODS, BOOTS & SHOES, GROCERIES AND PROVISIONS

Groceries always fresh. Kept in dust and glass jars. Teas and Coffees from the best importers.

FRUIT WAS NEVER MORE PLENTIFUL

Preserving Cherries arriving this week, Apricots, Raspberries and Strawberries will be out of fashion till another season comes around. A choice assortment of fruit comprises some of the following: Delicious Plums, Cherries, Pears, Cantaloupes, etc. Salads and Fresh Vegetables, native and imported. What more do you want.

DRY GOODS AND BOOTS OF ALL DESCRIPTION

We told you and kept telling you that our intention was to clean out ladies' and men's white canvas footwear. Some of the lines had got out of production for fresh designs and makes. We put these in the Bargain Window and sold below cost. After a week the best selling lines had gone, then it was policy to make a further reduction of fifty cents a pair, then it left a few small sizes which were placed on the glass bargain show case at 50c a pair. What they cost us is heartrending. But they had to go.

THIS WEEK NOTICE

Men's White Canvas Balmorals will be put in the show window at much less than actual cost and the same procedure will be enacted, first choice less than cost. Next week when sizes have been culled a further reduction will be made and so on to the end of the chapter of men's wear—those shoes are so cheap that it is policy to buy them and wear them now keeping your high priced leather shoes for fall and wet weather. A word to the wise is sufficient.

DECLARATION OF POLICY OF THE MODERATION LEAGUE OF ALBERTA

The Moderation League of Alberta is a permanent organization for the purpose of initiating and supporting legislation that will promote temperance and better the moral, social and economic conditions in the Province of Alberta.

It proposes to support and carry on a movement for the repeal of the present Liquor Act, and substitute therefore a sane, reasonable and practical law.

The League recognizes as fully as any prohibitionist the suffering caused by intemperance and the abuse of strong liquors, and yields to none in anxiety to remove a blot on our civilization.

It is in regard to the measures to be adopted to end this evil that it differs from the prohibitionist.

It believes that victories are won by perseverance and strategy rather than by violently running amuck, and recognizes that prohibitory legislation of any kind can never of itself secure the desired end, and can only result in minimizing respect for law and order, unless the people are behind the legislation, and by the people it means not merely a majority of the people, but practically an unanimous people.

That prohibition begets crime and
